Education

Bitney College Preparatory High School

Current School, Grass Valley

Bitney Prep is a Big Picture learning school. It has a focus on real world learning, individuality, customizability and skills. I have gained experience in internships and research projects, with a focus on thinking outside the box and looking at things from different lenses. Part of Bitney is the many public speaking sessions for evaluation over the course of the year. I am confident in my ability to convey and understand ideas and questions on both a one-on-one and public setting.
